**AL KHAZNA INSURANCE COMPANY P.S.C.**

**Report of the Board of Directors for the three months period ended 31 March 2018**

The Board of Directors of Al Khazna Insurance Company P.S.C. is pleased to submit its first quarterly report of 2018 together with the interim financial information for the three-month period ended 31 March 2018.

The main highlights of the Group's financial results are summarized as follows:

- Gross Premium written increased from AED 18.3 million for the three months period ended 31 March 2017 to AED 19 million for the three months period ended 31 March 2018.
- The underwriting loss is reduced from 15.4 million for the period ended 31<sup>st</sup> March 2017 to AED 4.7 million for the three months period ended 31 March 2018.
- The net investment results for the period registered a loss of AED 200 thousand for the three months period ended 31 March 2018 against AED 5.7 million gain for the three months period ended 31 March 2017.
- The net loss for the three months' period ended 31 March 2018 is has decreased to AED 6.6 million compared to the loss of AED 11.1 million for the three months period ended 31 March 2017.
- The total assets of the Group were AED 595.2 million as at 31 March 2018 against AED 788.8 million as at 31 December 2017.
- The total capital and reserves attributable to the Company's equity holders is AED 108.8 million as at 31 March 2018 against AED 115.5 million as at 31 December 2017.
- Though there were challenges in terms of profitability, the mitigating measures planned by Management and Board, based on which, we believe the Group will enhance its performance and increase the profitability. Accordingly, these condensed consolidated financial statements are prepared adopting the going concern basis of accounting.

## REPORT ON REVIEW AND INTERIM FINANCIAL INFORMATION

### The Shareholders'

Al Khazna Insurance Company P.S.C  
Public Shareholding Company  
United Arab Emirates

### Introduction

We have reviewed the accompanying consolidated interim financial statements of **Al Khazna Insurance Company P.S.C - Public Shareholding Company**, as at 31 March 2018 which comprise the consolidated interim statement of financial position as at 31 March 2018 and the related consolidated interim statement of profit or loss, related consolidated interim statement of comprehensive income, related consolidated interim statement of changes in equity and consolidated interim statement of cash flows for the period from 1 January 2018 to 31 March 2018 and explanatory notes. Management is responsible for the preparation and presentation of these consolidated interim financial statements in accordance with International Financial Reporting Standard IAS 34 consolidated interim Financial Reporting ("IAS 34"). Our responsibility is to express a conclusion on these consolidated interim financial statements based on our review.

### Scope of review

We conducted our review in accordance with International Standards on Review Engagements 2410, "Review of consolidated interim Financial Information Performed by the Independent Auditor of the group." A review of financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### Basis for Disclaimer Conclusion

- As discussed in Note 3 to the consolidated interim financial statements, as of the end of the reporting period, the Group's losses for the period amounted to AED 6,590,916, cash flows used in operating activities amounted to AED 7,544,617, and accumulated losses exceeded 50% of the share capital.
- The group's Registration Certificates with Insurance Authority expired. As of the date of the issuance of these consolidated interim financial statements, these certificates have not yet been renewed by the group.

## **REPORT ON REVIEW AND INTERIM FINANCIAL INFORMATION (continued)**

- A revised Management's plan and cash flow forecasts with revised dates for submission of the Corrective Plan and disposal of assets has been approved by the Board of Directors as of the date of this report. The cash flow forecasts include assumptions related to non-enforcement of the terms of the loan agreement in respect of recovering the whole outstanding loan balance including the forgiven amount and interest, and a disposal of certain additional assets worth AED 45 million during May 2018 and AED 7 million by the end of September 2018.
- During the period insurance authority is suspended operations for 45 days to implement the corrective plan by the group, on 10 May 2018 the group submitted its corrective plan to insurance authority and they are waiting for the approval.
- We were not provided with documentation related to these assumptions to support the appropriateness of the consolidated financial statements being prepared using the going concern basis of accounting. Consequently, we were unable to confirm or dispel whether it is appropriate to prepare the consolidated financial statements using the going concern basis of accounting.

As disclosed in Note 7 to the consolidated interim financial statements:

- The Group's investment in Sanad Cooperative Insurance Company ("Sanad"), classified as investment at "fair value through profit or loss" is carried at AED 4.1 million as at 31 March 2018. We were unable to obtain sufficient appropriate evidence about the fair value of the Group's investment in Sanad as at 31 March 2018 and the Group's gain/loss resulting from the change in fair value for the year because the shares valuation is based on the 31 December 2016 financial statements of Sanad on which the external auditors expressed a disclaimer of opinion. Consequently, we were unable to determine whether any adjustments to these amounts were necessary.
- The Group's investments classified at "available-for-sale" (AFS) include investments in unquoted equity securities carried at AED 14.7 million as at 31 March 2018, and the Group's loss resulting from the change in fair value of these investments of AED 4.4 million is included in the Group's consolidated interim statement of total comprehensive income for the period then ended. We were unable to obtain sufficient appropriate evidence about the fair value of the Group's investments in these shares as at 31 March 2018 and the Group's gain/loss resulting from the change in fair value for the period because the shares valuations are based on the prior year financial information of the investees as current information is absent. Consequently, we were unable to determine whether any adjustments to these amounts were necessary.

Further, as disclosed in Note 6 to the consolidated interim financial statements:

## REPORT ON REVIEW AND INTERIM FINANCIAL INFORMATION (continued)

- Included in investment properties is a plot of land (C-72 in Mussafah) valued at AED 9.1 million as of 31 March 2018 and registered in the name of previous directors who had assigned full beneficial rights of the plot to the Group. During the last year of the reporting period, as per management, this plot of land has been swapped with another plot of land (C-76 in Mussafah) by the Department of Urban Planning and Municipalities. We have not been provided with the necessary evidence to substantiate this transaction. Further, the new plot of land (valued at AED 7.7 million as of 31 March 2018) is also registered in the name of the previous directors, who had assigned full beneficial rights of the plot to the Group. We were unable to ascertain the valuation and rights and obligations for this property and consequently, we were unable to determine whether any adjustments to this amount were necessary.
- The Group's investment properties include two plots of land with a carrying value of AED 87.3 million as of 31 March 2018 (31 December 2017 : AED 87.3 million) for which the master developer did not transfer the titles to the name of the group, pending the settlement of the last instalments, which are linked to the completion of the development works. We were unable to determine whether any adjustments to this amount were necessary.

### *Disclaimer of conclusion*

Based on due to the significant of the matter described in the basis of disclaimer of conclusion section, we were unable to form a conclusion on the accompanying interim financial information accordingly, we do not express a conclusion on this interim financial information.

### *Key Audit Matters*

The consolidated financial statements of the group for the year ended 31 December 2017 were audited by another auditor who expressed a disclaimer opinion on those statements on 27 March 2018.

### *Report on other legal and regulatory requirements*

We are required to report on the application of the provisions of the UAE Federal Law No. (2) of 2015 and the Articles of Association of the Company as per Article 246 of the UAE Federal Law No. (2) of 2015. Further, as required by the U.A.E. Federal Law No. 6 of 2007, as amended, we are required to report whether we have obtained all the information and explanations we considered necessary for the purpose of our audit. However, due to the matters described in the Basis for Disclaimer of Opinion above, we are unable to report further on the application of these requirements.

**2. ADOPTION OF NEW AND REVISED INTERNATIONAL FINANCIAL REPORTING STANDARDS (IFRSs)**

- a) In the current year, the group has adopted the new and revised International Financial Reporting Standards (IFRSs) including the International Accounting Standards (IASs) and their interpretations that are relevant to its operations and effective for annual reporting periods beginning on 1 January 2017.
- b) At the date of authorization of these consolidated interim financial statements, the following Standards and Interpretations have been issued :

	<u>Effective for annual periods beginning on or after</u>
IFRS 15 - revenue from contracts with customers.	1 January 2018
IFRS 9 - financial instruments.	1 January 2018
Amendments on IFRS 2 - classification and measurement of share based payment transactions	1 January 2018
Amendments on IAS 40 - transfer of investment property	1 January 2018
Interpretation IFRS 22 - foreign currency transactions and advance consideration	1 January 2018
IFRS 16 - leases.	1 January 2019

**3. GOING CONCERN**

- a) During the reporting period, the group submitted its corrective plan to insurance authority and they are waiting the approval on it. The management decided in this corrective plan to reduced its underwriting activities in different lines of business until it concludes on corrective measures, which will be based on technical recommendations suggested by management. This has resulted in a reduction in cash inflows from the underwriting business and consequently a reduction in available cash as at the end of the reporting period.

**AL KHAZNA INSURANCE COMPANY P.S.C**  
**PUBLIC JOINT STOCK**  
**UNITED ARAB EMIRATES**

**NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS**  
**(AMOUNTS ARE EXPRESSED IN U.A.E. DIRHAMS)**

---

The Group might not be able to meet its financial obligations for the coming 12 months if it does not generate sufficient cash flows through the operating activities and the disposal of additional assets amounting to AED 45 million by the end of May 2018 and AED 7 million by the end of September 2018.

- b) The Financial Regulations for Insurance Companies (the “Regulations”) issued by the IA sets specified limits for assets distribution and allocation. Holding inadmissible investments or non-compliance with the set limits affects the Group’s ability to meet the Regulations’ solvency requirements. The deadlines for compliance with the Regulations requirements vary between end of January 2017 and end of January 2018. Compliance with these requirements requires significant restructuring of the Group’s investments portfolio based on different milestones within the current period, with full implementation not later than end of January 2018.

The Group will be in non-compliance with the Regulations requirements if it does not prepare and execute a Corrective Plan in respect of restructuring its investments portfolio on a timely manner which might result in further actions taken by the IA that might affect the Group operations.

- c) The Group incurred a loss of AED 6,590,916, its cash flows used in operating activities amounted to AED 7,544,617 for the period ended 31 March 2018 and its accumulated losses exceeded 50% of its share capital as of 31 March 2018.
- d) The Group's Registration Certificates with Insurance Authority expired. As of the date of the issuance of these financial statements, these certificates have not yet been renewed by the company.

Management considers that the above factors present significant challenges to the group in terms of meeting its operating and financing cash flow requirements in the foreseeable future. Whilst management has planned the below measures to overcome those circumstances, there are material uncertainties over future results and cash flows.

**AL KHAZNA INSURANCE COMPANY P.S.C**  
**PUBLIC JOINT STOCK**  
**UNITED ARAB EMIRATES**

**NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS**

**(AMOUNTS ARE EXPRESSED IN U.A.E. DIRHAMS)**

---

- Management will reassess, based on the corrective plan, its pricing and reinsurance strategy to improve the performance of the medical line of business and its pricing and expense loadings of the motor and other lines of business. Management is also developing and implementing a plan to review the overall expenses across all lines of business. Management has a reasonable expectation that this Corrective Plan will enable the Group to generate profits or to at least reduce its losses from operating activities significantly.
- The Board has set an investment action plan for restructuring the Group's investments portfolio and for full or partial disposal of certain investments including plots of land, and/or other quoted and non-quoted investments to generate cash flows to support the operating and financing cash flow requirements in the short and medium term as well as to comply with Insurance Authority regulations requirements related to concentration and asset allocation limits.
- On 30 April 2018, the AGM passed a resolution to continue in the activity of the Company and authorized the Board to sell investment assets, if needed, to settle the bank loan and generate liquidity.

These conditions indicate the existence of multiple material uncertainties that may cast significant doubt on the group's ability to continue as a going concern and therefore that it may be unable to realize its assets and discharge its liabilities in the normal course of business. As a result of the mitigating measures described above, management has a reasonable expectation that the Group has adequate plan and resources to overcome these challenges and continue in operational existence for the foreseeable future.

This conclusion relies particularly on the Group being able to successfully implement its Corrective Plan for the insurance business, non-enforcement of the terms of the loan agreement in respect of recovering the whole outstanding loan balance including the forgiven amount and interest by the bank renewal of the registration licenses, as well as for full or partial disposal of certain assets, so the Group can contain its losses, and generate positive cash flows from operating and investing activities. For these reasons, management continues to adopt the going concern basis of accounting in preparing the consolidated interim financial statements.

**AL KHAZNA INSURANCE COMPANY P.S.C**  
**PUBLIC JOINT STOCK**  
**UNITED ARAB EMIRATES**

**NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS**  
**(AMOUNTS ARE EXPRESSED IN U.A.E. DIRHAMS)**

---

In the absence of the Group's ability to achieve management's planned measures, the going concern basis would be invalid and adjustments would have to be made to reduce the values of the assets as presented in the consolidated statement of financial position to their recoverable amounts, to provide for further liabilities that might arise and to reclassify non-current assets and liabilities as current assets and liabilities.

**4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

a. *Consolidated Interim Financial Statements Preparation Framework*

The consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards.

b. *Consolidated Interim Statement of compliance*

The consolidated interim financial statements have been prepared in accordance with International Financial Reporting standards (IFRS) and applicable requirements of UAE Federal Law No. 6 of 2007 concerning Insurance Companies and Agents.

c. *Basis of preparation*

The consolidated interim financial statements have been prepared on the historical cost basis, except for the measurement / revaluation of certain assets and financial instruments at a basis other than the historical cost. The significant accounting policies are set out below.

d. *Property and equipment*

The property and equipment are carried in the consolidated interim statement of financial position at their cost less any accumulated depreciation and any accumulated impairment.

The depreciation charge for each period is recognized in the consolidated interim statement of income. Depreciation is calculated on a straight line basis, which reflects the pattern in which the asset's future economic benefits are expected to be consumed by the group over the estimated useful life of the assets as follows:

<u>Category</u>	<u>Useful life</u>
Office equipment and decoration	4 years
Computer equipment and accessories	4 years
Motor vehicles	5 years

**AL KHAZNA INSURANCE COMPANY P.S.C**  
**PUBLIC JOINT STOCK**  
**UNITED ARAB EMIRATES**

**NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS**  
**(AMOUNTS ARE EXPRESSED IN U.A.E. DIRHAMS)**

---

The depreciation charge for each period is recognized in the consolidated interim statement of income. The estimated useful lives, residual values and depreciation method are reviewed at each year-end, with the effect of any changes in estimate accounted for on a prospective basis.

The carrying values of property and equipment are reviewed for impairment when events or changes in the circumstances indicate the carrying value may not be recoverable. If any such indication of impairment exists, impairments losses are calculated in accordance with Note 3 (e).

On the subsequent derecognizing (sale or retirement) of the property and equipment, the resultant gain or loss, being the difference between the net disposal proceeds, if any, and the carrying amount, is included in the consolidated interim statement of income.

e. *Impairment of tangible assets*

At each consolidated interim statement of financial position date, the company reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have been impaired. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any, being the amount by which the carrying amount of the asset exceeds its recoverable amount. The recoverable amount is the higher of asset's fair value less costs to sell and the value in use. The asset's fair value is the amount for which that asset could be exchanged between knowledgeable, willing parties in arm's length transaction. The value in use is the present value of the future cash flows expected to be derived from the asset. An impairment loss is recognized immediately in the consolidated interim statement of income, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Where an impairment loss subsequently reverses, the carrying amount of the asset is decreased to the revised estimate of its recoverable amount, but the increased carrying amount due to reversal should not be more than what the depreciated historical cost would have been if the impairment had not been recognized in prior years. A reversal of an impairment loss is recognized immediately in the consolidated interim statement of income unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation decrease.

**UNITED ARAB EMIRATES**

**NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS**

**(AMOUNTS ARE EXPRESSED IN U.A.E. DIRHAMS)**

---

- f. *Financial assets designated at fair value through other comprehensive income (FVTOCI) and through profit and loss (FVTPL)*

At initial recognition, the group can make an irrevocable election (on an instrument - by - instrument basis) to designate investments in equity instruments as at FVTOCI. Designation at FVTOCI is not permitted if the equity investments is held for trading.

The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

Investments in equity instruments at FVTOCI are initially measured at fair value plus transaction costs. Subsequently, these are measured at fair value with gains and losses arising from changes in fair value recognized in other consolidated interim comprehensive income and accumulated in the investments revaluation reserve.

Financial assets are classified as FVTPL when they are held for trading which means they have been acquired principally for the purpose of selling in the near future. Financial assets of FVTPL are stated at their fair value, subsequent gains and losses arising from changes in fair value are recognized in consolidated interim statement of income.

- g. *Impairment of financial assets*

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each year. For financial assets carried at amortized cost, the amount of the impairment is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets.

With the exception of financial assets designated at fair value through other comprehensive income (FVTOCI), if, in a subsequent year, the amount of the impairment loss decreases due to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed through profit or loss to the extent that the carrying amount of the investments at the date the impairment is reversed does not exceed what the amortized cost would have been had the impairment not been recognized.

In respect of financial assets designated at fair value through consolidated interim other comprehensive income (FVTOCI), any increase / decrease will be recognized in profit and loss. Any increase in fair value subsequent to an impairment loss is recognized in other consolidated interim comprehensive income.

h. *Financial assets*

Financial assets are classified into the following specified categories: financial assets designated at fair value through other comprehensive income (FVTOCI), financial assets designated at fair value through profit or loss (FVTPL), financial assets designated at amortized cost, loans and receivables and cash and cash equivalents. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition or subsequent reclassification as the case may be.

i) *Cash and cash equivalents*

Cash comprises unrestricted cash on hand and cash at bank - current accounts. Cash equivalents are short term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

ii) *Insurance receivables*

Insurance receivables are stated at net realizable value. When an insurance receivable is uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognized in the consolidated interim statement of income.

iii) *Loans and receivables*

Loans and receivables includes insurance and other receivables. Insurance receivables that either have or do not have a fixed or determinable payments and are not quoted in an active market, and other receivables are stated at net realizable value. The carrying values are not materially different from their fair values.

i. *Statutory reserve*

Pursuant to the Company's Articles of Association, 10% of net profit for the year to be withheld annually and retained in the statutory reserve account. The deduction shall be suspended when the balance in this reserve account amounts to at least 50% of the company's capital and is not available for distribution for shareholders'.

**PUBLIC JOINT STOCK**  
**UNITED ARAB EMIRATES**

**NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS**

**(AMOUNTS ARE EXPRESSED IN U.A.E. DIRHAMS)**

---

j. *Financial liabilities*

Financial liabilities includes borrowings from banks, insurance contract liabilities and Insurance and other payables. Insurance payables that have fixed or determinable payments that are not quoted in an active market and other payables are stated at cost. The carrying values are not materially different from their fair value.

k. *Borrowing costs*

Borrowing costs include interest on bank borrowings, amortization of discounts or premiums on borrowings, amortization of ancillary costs incurred in the arrangement of borrowings, and finance charges on finance leases.

Borrowing costs are expensed in the year in which they are incurred.

l. *End of service benefits obligation*

End of service benefits obligation for employees is accounted for in accordance with U.A.E. Labour Law.

m. *Revenue recognition*

*Recognition and measurement*

Insurance contracts are classified into two main categories, depending on the duration of risk and whether or not the terms and constitutions are fixed.

These contracts are casualty and property insurance contracts.

Casualty insurance contracts protects the company's customers against the risk of causing harm to third parties as a result of their legitimate activities. Damages covered include both contractual and non contractual events. The typical protection offered is designed for employers who become legally liable to pay compensation to injured employees (employers liability) and for individual and business customers who become liable to pay compensation to a third party for bodily harm or property damage (public liability).

Property insurance contracts mainly compensate the company's customers for damage suffered to their properties or for the value of property lost. Customers who undertake commercial activities on their premises could also receive compensation for the loss of earnings caused by the inability to use the insured properties in their business activities (business interruption cover).

**AL KHAZNA INSURANCE COMPANY P.S.C**  
**PUBLIC JOINT STOCK**  
**UNITED ARAB EMIRATES**

**NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS**  
**(AMOUNTS ARE EXPRESSED IN U.A.E. DIRHAMS)**

---

For all these insurance contracts, premium are recognized as revenue (earned premiums) proportionally over the year of coverage. The portion of premium received on in force contracts that relates to unexpired risks at the consolidated interim financial position date is reported as the unearned premium liability.

Claims and loss adjustments expenses are charged to profit or loss as incurred based on the estimated liability for compensation owed to contracts holders or third parties damaged by the contracts holders.

***Re-insurance contracts held***

Contracts entered into by the company with reinsurers under which the company is compensated for losses on one or more contracts issued by the company and that meet the classification requirements of reinsurance contracts are classified as re-insurance contracts held. Contracts that do not meet these classification requirements are classified as financial assets. Insurance contracts entered into by the company under which the contract holder is another insurer are included with insurance contracts. The benefits to which the company is entitled under its re - insurance contract held is recognized as re-insurance contract assets. The company assesses its re-insurance contract assets for impairment on a regular basis. If there is objective evidence that the re-insurance contract asset is impaired, the group reduces the carrying amount of the re -insurance contract assets to its recoverable amount and recognizes that impairment loss in the profit or loss. Amounts recoverable from or due to reinsurers are measured consistently with the amounts associated with the reinsured insurance contracts and in accordance with the terms of each reinsurance contract.

***Insurance contract liabilities***

Insurance contract liabilities towards outstanding claims are made for all claims intimated to the company and still unpaid at the end of the reporting period, in addition to claims incurred but not reported. The unearned premium considered in the insurance contract liabilities comprise the estimated proportion of the gross premiums written which relates to the years of insurance subsequent to the financial position date and is estimated using the time proportionate method. The unearned premium calculated using the 365 days method to spread the premium written proportionally over the period of coverage for all lines of business, except for marine cargo, which is calculated as 25% of gross written premium and for engineering which is calculated on daily increasing basis over the term of the policy.

**AL KHAZNA INSURANCE COMPANY P.S.C**  
**PUBLIC JOINT STOCK**  
**UNITED ARAB EMIRATES**

**NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS**  
**(AMOUNTS ARE EXPRESSED IN U.A.E. DIRHAMS)**

---

The re-insurers' portion towards the above outstanding claims, claims incurred but not reported and unearned premium is classified as re-insurance contract assets in the consolidated interim financial statements.

Provision for the premium which represent the portion of the premium subsequent to the consolidated interim financial statement date and where the premium is expected to be insufficient to cover anticipated claims, have been considered under the unexpired risk reserves ("URR") and booked under allocated and unallocated loss adjustments in the consolidated interim income statement.

*Salvage and subrogation reimbursements*

Estimates of salvage and subrogation reimbursements are considered as an allowance in the measurement of the insurance liability for claims.

*Receivables and payables related to insurance contracts*

Receivables and payables are recognized when due. These include amounts due to and from agents, brokers and insurance contract holders.

If there is objective evidence that the insurance receivable is impaired, the company reduces the carrying amount of the insurance receivable accordingly and recognizes that impairment loss in profit or loss.

*Interest income*

Interest income from fixed deposits are accrued on a time basis, by reference to the principal outstanding and at the interest rate applicable.

n. *Foreign currencies*

The consolidated interim financial statements are presented in the UAE Dirhams (AED) which is the group's functional currency. In preparing the financial statements, transactions in currencies other than the group's functional currency (foreign currencies) are recorded at the rates of exchange prevailing at the dates of the transactions. At each consolidated interim statement of financial position date, monetary items denominated in foreign currencies are retranslated at the rates prevailing at the consolidated interim statement of financial position date (closing rate). Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction. Non-monetary items that are measured at fair value in foreign currency are translated using the exchange rates at the date when the fair value was determined.

**AL KHAZNA INSURANCE COMPANY P.S.C**  
**PUBLIC JOINT STOCK**  
**UNITED ARAB EMIRATES**

**NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS**  
**(AMOUNTS ARE EXPRESSED IN U.A.E. DIRHAMS)**

---

Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the year or in previous consolidated interim financial statements shall be recognized in the statement of income in the year in which they arise.

*o. Contingent liabilities*

Contingent liabilities are possible obligations depending on whether some uncertain future events occur, or they are present obligations but payments are not probable or the amounts cannot be measured reliably.

*p. Critical accounting judgments and key sources of estimation uncertainty*

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the year in which the estimate is revised if the revision affects only that year, or in the year of the revision and future periods if the revision affects both current and future periods.

*i) The ultimate liability arising from claims made under insurance contracts*

The estimation of ultimate liability arising from the claims made under insurance contracts is the company's most critical accounting estimate. There are sources of uncertainty that need to be considered in the estimate of the liability that the company will eventually pay for such claims. Estimates have to be made at the end of the reporting period both of the expected ultimate cost of claims reported as well as the expected ultimate cost of claims incurred but not reported ("IBNR"). Liabilities for unpaid reported claims are estimated using the input of assessments for individual cases reported to the company and management estimates based on past claims settlement trends for the claims incurred but not reported. At the end of each reporting year, prior year claims estimates are reassessed for adequacy and changes are made to the provision.

Provision for the premium which represent the portion of the premium subsequent to the financial statement date and where the premium is expected to be insufficient to cover anticipated claims, have been considered under the unexpired risk reserves ("URR") and booked under allocated and unallocated loss adjustments in the consolidated interim income statement.

ii) *Liability adequacy test*

At the end of each reporting year, liability adequacy tests are performed to ensure the adequacy of insurance contract liabilities. The company makes use of the best estimates of future contractual cash flows and claims handling and administration expenses, as well as investments income from the assets backing such liabilities in evaluating the adequacy of the liability. Any deficiency is immediately charged to the profit or loss.

iii) *Provision for doubtful debts*

Management has estimated the recoverability of trade receivables and has considered the provision required for doubtful receivables, on the basis of prior experience and current economic situations.

6. INVESTMENT PROPERTIES

a) This item consists of the following :

	<u>Land</u>	<u>Buildings</u>	<u>Total</u>
At 1 January 2018 (Audited)	152,690,000	150,105,000	302,795,000
<b>31 March 2018 - Exhibit A (Unaudited)</b>	<b><u>152,690,000</u></b>	<b><u>150,105,000</u></b>	<b><u>302,795,000</u></b>

- b) i) Investment properties represent the fair value of plots of lands with a total value of AED 152.7 million and buildings with a value of AED 150.1 million owned by the group in Abu Dhabi, Al Ain and Mussaffah.
- ii) Included within investment properties are two plots of land with a carrying value of AED 87.3 million as of 31 March 2018 (31 December 2017 : AED 87.3 million) whose title were not transferred to the name of the group, pending the settlement of the last installments which are linked to the completion of the group's development works on these plots.
- iii) Also included in the investment properties is a plot of land (C-72 in Mussafah) valued at AED 9.1 million as of 31 March 2018 registered in the name of previous directors who assigned full beneficial rights of the plot to the group. During the last quarter of the reporting period, this plot of land was swapped with another plot of land (C-76 in Mussafah) by the Department of Urban Planning and Municipalities. Further, the new plot of land is also registered in the name of the previous directors, who assigned full beneficial rights of the plot to the group.
- c) The fair value of the investment properties as of 31 March 2018 has been arrived at on the basis of independent valuations carried out by two valuers that are not related to the Group. The valuers are members of the Royal Institute of Surveyors, and have appropriate qualifications and recent experience in the valuation of properties in the relevant locations.
- d) A building with a carrying value of AED 132.5 million is mortgaged in favour of First Abu Dhabi Bank against the bank loan.

b) Term loan 1:  
 Term loan 1 from First Abu Dhabi Bank represents the restructured agreement with the bank to restructure the Group's previous loan to total amount of AED 227.1 million (net of a forgiven amount of AED 39.4 million, which is subject to the terms and conditions) as full and final settlement of the previous loan. The terms of the new loan are as follows:

- Interest rate: 3 months EIBOR + 1.5% per annum (subject to minimum rate of 4.75% per
- Down payment of AED 22.76 million;
- 1st year payment: AED 20 million (semi-annual payments of AED 10 million);
- 2nd year till 5th year: AED 120 million (semi – annual payments of AED 15 million); and
- 6th year: AED 64.94 million (semi – annual payments of AED 32.47 million).

**AL KHAZNA INSURANCE COMPANY P.S.C**

**PUBLIC JOINT STOCK**  
**UNITED ARAB EMIRATES**

**NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS**

**(AMOUNTS ARE EXPRESSED IN U.A.E. DIRHAMS)**

The above stated forgiven amount of AED 39.4 million is subject to the compliance with the payment schedule for both the principal and interest amounts.

The group has provided First Abu Dhabi Bank with a primary mortgage over AKIC Tower, classified under investment properties, fair valued at AED 132.5 million (31 December 2017 : AED 149 million)

During the fourth quarter, the group has defaulted in the repayment of one of its loan installment. As per one of the covenant of the loan agreement the whole amount of the outstanding loan becomes immediately payable along with the previously forgiven amount of AED 39.4 million (plus interest) in the event of default of any repayment.

The bank has opened a bank overdraft facility in the name of the group for the repayment of the due installments on which the group defaulted during the year. The outstanding overdraft balance as at 31 March 2018 amounted to AED Nil (31 December 2017: AED 10,265,009).-

c) Term loan 2:

Term loan 2 is from a local bank and is repayable in monthly installments of AED 6,757 each up to November 2018. The loan carries interest at a rate of 5% per annum.

14. **TECHNICAL PROVISIONS**

**19. RISK MANAGEMENT**

The group monitors and manages the financial risks relating to its business and operations. These risks include insurance risk, capital risk, credit risk, interest rate risk, market risk, foreign currency risk and liquidity risk.

The group seeks to minimize the effects of these risks by diversifying the sources of its capital. It maintains timely reports about its risk management function and monitors risks and policies implemented to mitigate risk exposures.

a) *Insurance risk*

The risk under any one insurance contract is the possibility that the insured event occurs and the uncertainty of the amount of the resulting claim. By the nature of an insurance contract, this risk is random and therefore unpredictable.

For a portfolio of insurance contracts where the theory of probability is applied to pricing and provisioning, the principal risk that the company faces under its insurance contracts is that the actual claims and benefit payments exceed the estimated amount of the insurance liabilities. This could occur because the frequency or severity of claims and benefits are greater than estimated. Insurance events are random and the actual number and amount of claims and benefits will vary from year to year from the estimate established using statistical techniques.

Experience shows that the larger the portfolio of similar insurance contracts, the smaller the relative variability about the expected outcome will be. In addition, a more diversified portfolio is less likely to be affected across the board by a change in any subset of the portfolio. The group has developed its insurance underwriting strategy to diversify the type of insurance risks accepted and within each of these categories to achieve a sufficiently large population of risks to reduce the variability of the expected outcome.

The group manages risks through its underwriting strategy, adequate reinsurance arrangements and proactive claims handling. The underwriting strategy attempts to ensure that the underwritten risks are well diversified in terms of type and amount of risk, industry and geography. Underwriting limits are in place to enforce appropriate risk selection criteria.

**PUBLIC JOINT STOCK**  
**UNITED ARAB EMIRATES**

**NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS**  
**(AMOUNTS ARE EXPRESSED IN U.A.E. DIRHAMS)**

---

b) *Capital risk*

The group's objectives when managing capital are :

- To comply with the insurance capital requirements required by UAE Federal Law No. 6 of 2007 concerning the formation of Insurance Authority of UAE.
- To safeguard the company's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders.
- To provide an adequate return to shareholders by pricing insurance contracts commensurately with the level of risk.

In UAE, the local insurance regulator specifies the minimum amount and type of capital that must be held by the company in relation to its insurance liabilities. The minimum required capital (presented in the table below) must be maintained at all times throughout the year. The company is subject to local insurance solvency regulations with which it has complied with during the period.

The table below summarizes the minimum regulatory capital of the group and the total capital held.

	<u>31 March 2018</u> <u>(Unaudited)</u>	<u>31 December 2017</u> <u>(Audited)</u>
Total shareholders' equity	<u>108,872,141</u>	<u>115,481,425</u>
Minimum regulatory capital	<u>100,000,000</u>	<u>100,000,000</u>

c) *Credit risk*

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the group.

Key areas where the group is exposed to credit risk are :

- Re-insurers' share of insurance liabilities.
- Amounts due from reinsurers in respect of claims already paid.
- Amounts due from insurance contract holders.
- Amounts due from insurance intermediaries (Note 9)
- Amounts due from banks for its balances and fixed deposits (Note 11).

**AL KHAZNA INSURANCE COMPANY P.S.C**  
**PUBLIC JOINT STOCK**  
**UNITED ARAB EMIRATES**

**NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS**  
**(AMOUNTS ARE EXPRESSED IN U.A.E. DIRHAMS)**

---

The group has adopted a policy of only dealing with creditworthy counterparties as a means of mitigating the risk of financial loss from defaults. The group's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties. Credit exposure is controlled by counter party limits that are reviewed and approved by the management annually.

Re-insurance is used to manage insurance risk. This does not, however, discharge the company's liability as primary insurer. If a re-insurer fails to pay a claim for any reason, the company remains liable for the payment to the policy holder. The creditworthiness of re-insurers is considered on an annual basis by reviewing their financial strength prior to finalization of any contract.

The group maintains record of the payment history for significant contract holders with whom it conducts regular business. The exposure to individual counterparties is also managed by other mechanisms, such as the right of offset where counterparties are both debtors and creditors of the company. Management information reported to the group includes details of provisions for impairment on insurance receivables and subsequent write offs . Exposures to individual policy holders and groups of policy holders are collected within the ongoing monitoring of the controls. Where there exists significant exposure to individual policy holders, or homogenous groups of policy holders, a financial analysis equivalent to that conducted for re-insurers is carried out by the group.

The carrying amount of financial assets recorded in the consolidated interim financial statements, which is net of impairment losses, represents the group's maximum exposure to credit risk for such receivables and liquid funds.

d) *Interest rate risk*

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rate. The group is exposed to interest rate risk on financial assets and borrowings from banks. The interest rates are subject to periodic revisions.

e) *Market risk*

Market prices risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices, whether those changes are caused by factors specific to the individual instrument or its issue or factors affecting all instruments traded in the market.

The group is exposed to market risk with respect to its investments in financial assets available for sale, investments designated at fair value through profit or loss and investments properties.

**PUBLIC JOINT STOCK**  
**UNITED ARAB EMIRATES**

**NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS**

**(AMOUNTS ARE EXPRESSED IN U.A.E. DIRHAMS)**

f) *Foreign currency risk*

The group undertakes certain transactions denominated in foreign currencies, which imposes sort of risk due to fluctuations in exchange rates during the year. The UAE Dirham is effectively pegged to the US Dollar, thus foreign currency risk occurs only in respect of other currencies. The group maintains policies and procedures to manage the exchange rate risk exposure.

g) *Liquidity risk*

The group's board of directors adopted an appropriate liquidity risk management framework as the responsibility of liquidity risk management rests with them.

The following table shows the maturity dates of group's financial assets and liabilities as at 31 March 2018 (Unaudited).

<u>Financial assets</u>	<u>Less</u> <u>than 1 year</u>	<u>More</u> <u>than 1 year</u>	<u>Total</u>
